## SUMMARY

Computer Engineering with hands-on experience in both web development and hardware projects. Passionate about continuous learning and currently focused on advancing skills in full-stack web development. Dedicated to building practical, user-centered applications and eager to contribute to innovative projects in a collaborative environment.

## WORK EXPERIENCE

### IT intern, National Development Company

Feb 2025 - May 2025

- Performed basic computer maintenance including hardware cleaning, software installation, system updates, and diagnosing common computer performance issues.
- Gained hands-on experience developing basic web applications using Django for backend functionality.

### Junior Dev Training, SBC Simplified Business Consultancy

July 2025 - Sept 2025

- Designed and implemented relational database structures, establishing one-to-one, one-to-many, and many-to-many relationships. Utilized Entity Framework for ORM, enabling efficient data querying, migrations, and CRUD operations.
- Implemented secure user authentication and role-based authorization in ASP.NET Core applications, ensuring data access control and compliance with security best practices.
- Built fully functional ASP.NET Core Web APIs, handling HTTP requests, routing, middleware integration, and response formatting. Gained experience in dependency injection, exception handling, and API versioning.
- Repository patterns, and dependency injection to produce clean, maintainable, and scalable code.

## ACADEMIC PROJECT EXPERIENCE

- CLSF website - Designed and developed the official website for "Christ, the Living Stone Fellowship" using Figma for UI/UX design and the React Framework for front-end development. Implemented CRUD operations with MySQL for backend data management.
- Delicious Ice candy Website - Created and deployed a website system for "Delicious Ice Candy," featuring functionalities for managing orders, products, and customer data efficiently.

## EDUCATION

### Bachelor of Science in Computer Engineering

2021-2025

Universidad de Manila

### General Academic Strand

2019-2021

Universidad de Manila

## SKILLS

- |                   |                |          |                   |              |
|-------------------|----------------|----------|-------------------|--------------|
| ● Problem-solving | ● UI/UX Basics | ● Django | ● Tailwind        | ● PostgreSQL |
| ● Adaptive        | ● React        | ● APIs   | ● Version control | ● MS SQL     |
| ● .NET            | ● Blazor Wasm  |          |                   |              |
